Pioneer

2-Channel Free Style Sound System

FS-W40

WHITE BLACK

FS-W40 (W)

Experience the Freedom of Luxury Sound

Whatever ambience you've created in your living space—where memorable moments are shared daily with the people you love—the FS-W40 Free Style Sound System enhances its personality with clean style and "free layout" concept. Accented with luxurious aluminum and ceramic-like textures, the slimline AV Center liberates home entertainment, from movie and games to virtually any streaming music you desire through compact yet powerful loudspeakers. This versatile system can be freely positioned without compromising its outstanding audio performance, with subtly contoured speakers adding a hint of sophistication to your interior design.

  • Weight: 1.7 kg (ea.)
› Optional FS-SW40 Wireless Subwoofer*[6]
  • Dimensions (W x H x D): 271 x 335 x 277 mm
  • Weight: 7.4 kg

FS-S40 Speaker System

FS-SW40 Subwoofer

REAR PANEL

FS-W40 (B)

Chic Style for a Clean Installation

The sophisticated FS-W40 has a silk-gloss aluminum top panel with ceramic-like fascia, touch-sensitive buttons, and FL display. More than a stylish centerpiece, the AV Center reduces cable clutter and simplifies on-wall TV installation.

No Cables. No Stress.

These unobtrusive yet deceptively powerful active speakers blend with any interior and can be placed wherever you like. A distance calibration system balances sound in asymmetric layouts. Add optional FS-S40 Wireless Rear Speakers and FS-SW40 Wireless Subwoofer (sold separately) to enjoy flexible and immersive 4.1-channel surround-sound.

Dual-band Wi-Fi® and *Bluetooth*® Technology

You can stream audio from mobile, laptop, and PC over 5 GHz/2.4 GHz Wi-Fi® for a stable wireless connection. Pioneer Remote App gathers music on the device and on network-attached storage devices into an easily navigated library together with access to available streaming services. *Bluetooth*® wireless technology is also included for convenient transmission of app-based audio to your entertainment system.

Includes TIDAL*, Spotify®, Deezer*, and TuneIn

Native support for the world's most popular streaming and internet radio services* opens new horizons in entertainment. Use dedicated apps (where available) or Pioneer Remote App to enjoy streaming audio with room-filling sound.

* Requires firmware update before operation. Some services may require a subscription.

Compatible with Ultra HD Video

HDMI® terminals support Ultra HD Blu-ray™, broadcast, and streaming video with HDCP 2.2 compliance. Other features such as 4K/60 Hz, BT.2020 color, HDR, and 4:4:4 color space exploit next-generation content.

Listen Your Way

The FS-W40 decodes most popular stereo and multichannel audio formats and offers a range of listening modes so you can enjoy the sound that suits you and your content best. Hi-Res Audio via network and USB is also supported.

Easy Operation

Wireless speakers connect automatically the moment the AV Center detects an incoming signal, and powers down by itself once you're done. As well as Pioneer Remote App, you can use the remote controller to navigate a simple graphic interface to select sources and change AV settings.

FireConnect™* Multi-room Technology

FireConnect™* mirrors audio playing to the FS-W40 on compatible speakers placed around the home. Control playback in all zones via Pioneer Remote App, or by using buttons on the speakers.

* Multi-room audio is realized by FireConnect™, a technology by Blackfire Research Corp., USA. We do not guarantee this product will work with all FireConnect™-compatible speakers. FireConnect™ speakers are scheduled for release.

FireConnect™ by Blackfire Research Corp. is a stable wireless protocol that mirrors any audio source connected to the receiver—from CDs to streaming audio.

INTEGRATED TECHNOLOGIES

Note: FireConnect™, TIDAL, and Deezer require firmware update.
