

IN ADMIRATION OF MUSIC

FAZON F5

The Shape of Brilliance

FAZON F5 is nothing like the vast majority of loudspeakers on the market. It is the genuine mixture of craftsmanship, performance, and aesthetics to fulfil the dream of a new era's loudspeaker.

Proud Heir & Daring New Breakthrough

Technology is inherited from the MENTOR series with characteristics such as undistorted performance, open sound, and extraordinary resolution.

The oversized dome tweeter (28 mm/1.1"), integrating perfectly with 2 x 5" woofers/midranges, allows dynamics and even the finest musical details to flourish. The visual appearance is stunning and speaks for itself: stylish, daring, and built on a unique aluminium body to ensure extremely rigid construction and minimized reflections. Because of the sophisticated curved shape, the FAZON F5 has no parallel sides, which prevents standing waves from arising.

Sound and shape

FAZON F5 is the image of future loudspeaker design and performance, matching the varying moods and needs of your day. FAZON F5 unites form and function, gets shape into sound and sound in good shape!

Welcome a brand new generation of high definition quality loudspeakers conveying authentic, natural sound from an elegant and courageous designed body shape.

DALI FAZON F5 is in the house.
