MOTIF SUB 2

DALI MOTIF SUB 2 is made to complement the successful DALI MOTIF LCR speakers; design and performance goes hand in hand. The same recipe is used for the MOTIF SUB 2, not only should the subwoofer look like a "must have" item, it is able to offer even higher performance from the combined MOTIF LCR and SUB 2 system.

The subwoofer has a very compact cubic cabinet measuring only approximately 26cm/10" on each side. The cabinet does not leave much space inside, but still it has been possible to pack it with two 6½" long stroke woofers and a powerful amplifier that will provide the juice for the woofers. The push-pull configuration totally eliminates mechanical cabinet vibration and transmission of vibration to e.g. the floor or hi-fi furnitures.

SPECIFICATIONS

Frequency range (+/- 3dB) [Hz]:	35,0 - 200,0
Nominal impedance [ohms]:	22.000
Maximum SPL [dB]:	104,0
Crossover frequencies:	60140
Low frequency driver:	Paper fibre cone
Enclosure type:	Closed box
Max. Amplifier Power Output [W]:	120
Continuous IEC Power Output [W]:	100
Maximum power consumption [W]:	180
Connection input(s):	Mono "line level" (LFE);S
Recommended placement:	Sub;Floor, in the corner
Loudspeaker type:	Subwoofer
Magnetic shielding:	No
Max loudspeaker dimensions incl. base and grille	275 X 255 X 265
Loudspeaker weight including base and grille [kg]:	8,5
