LEKTOR 3

LEKTOR 3 is the largest compact model in the LEKTOR range, featuring a 6.5" mid/bass unit capable of moving a substantial volume of air to generate potent deep bass far beyond what its modest dimensions would indicate.

With dual front-mounted bass reflex ports, LEKTOR 3 can be placed on a tabletop or stand or wall-mounted via the integral wall bracket. Suitable for a stereo or a multi channel setup, LEKTOR 3 is highly recommended as voicematched rear speakers with LEKTOR 8 or 6 in front or as front and rear speakers in a complete LEKTOR 3 surround system.
