E SERIES

HOME THEATRE SPEAKER SYSTEM

EXTREMELY E SERIES

Introducing the world's most advanced, high performance home theatre speaker system - featuring a genuine high fidelity sound - that's certain to bowl you over. Compact and elegant, E Series discretely delivers the full entertainment experience.

As you'd expect from a brand with an unrivalled 50-year record of innovation in pursuit of the purest, most accurate sound reproduction, the E Series has all the acoustic integrity and exceptional dispersion characteristics of its legendary predecessor, and then some.

With the new 4.25" Uni-Q® driver array derived from the award-winning Q Series, it elevates home theatre audio to a new level of performance and enjoyment. For very large rooms or the ultimate surround sound experience, the system can easily be upgraded with additional satellites to a 7.1 configuration.

EXTREMELY SIMPLE

Everything about the new E305 system is designed to make life easier and more pleasurable. It's simple to hook up to any AV receiver, which also controls the output level of the subwoofer. With no special tools or skills required, you'll set up your system for optimum performance in no time.
