

2Xperience SB DC

Top-grade turntable with 9" EVO tonearm & cartridge

- Electronic speed control with 33/45 rpm speed change, which acts as "Speed Box" with ultimate speed stability
- Precision balanced sandwich-platter with vinyl mat
- Record clamp tightens record to platter
- MDF chassis
- Audiophile grade 9" EVO carbon tonearm
- Inverted tonearm bearings (ABEC 7 quality)
- 2M Silver cartridge with silver voice coils is pre-mounted
- Available in 4 satin & 1 high-gloss finish: eucalyptus, olive, palisander, walnut, HG black piano

Speed	33, 45 (electronic speed change)
Drive principle	belt drive
Platter	300mm MDF
Mains bearing	stainless steel
Wow & flutter	+/- 0,08%
Speed drift	+/- 0,5%
Signal to noise	- 70dB
Tonearm	9" Carbon EVO
Effective arm length	230 mm
Effective arm mass	8,5 g
Overhang	18 mm
Tracking force	10 - 30mN
Included accessories	15 volts DC / 800 mA power supply, dust cover
Power connection	110/120 or 230/240 Volt - 50 or 60 Hz
Power consumption	4 watt max / < 0,5 watt standby
Dimensions	460 x 160 x 360 mm (WxHxD) lid closed
Weight	7,7 kg net

Outstanding performance from a compact and luxurious turntable configuration

2Xperience SB DC is based on the 2Xperience belt-drive concept which incorporates over 20 years of turntable design experience. The addition of precision motor control with electronic speed changing and a highend 9cc *Evolution carbon fiber tonearm* means playback quality is vastly improved. The heavy chassis is made from MDF using a non-resonant construction technique. The turntable platter is built with heavy, non-resonant materials in a precisely balanced sandwich configuration. A vinyl layer acts as the perfect turntable mat. A screwable and light-weight record clamp eliminates unwanted record vibration and rumbling of the main platter bearing. The audio performance of the final product benefits from the resonance-free platter, avoiding the ringing effect of common metal and glass platters.

The 2Xperience SB DC is not only equipped with a highend tonearm, but comes with a pre-fitted *Ortofon 2M Silver* magnetic cartridge that makes use of silver voice coils. An acrylic dust cover is also included. While audio electronics are often hidden and controlled by phone or tablet apps, the analog record player again is put in scene as the center of a hifi system and proudly presented like high-quality speakers. The new satin real wood turntable surfaces seamlessly fit the latest furniture trends (eucalyptus, olive, palisander), additionally a classic high-gloss black lacquer finish is available.
