C 803

The C 803 is a feature-packed, 2-way bass reflex speaker that uses a 7-inch woofer and a 1-inch decoupled tweeter to deliver remarkably accurate sound, tailored to its smaller, bookshelf sized cabinet.

Even though it's small, the C 803 is engineered to sound big—which is the first thing you notice when you hear it. It has been designed with Jamo's unique convex tapered vent, which reduces unwanted port turbulence and almost eliminates port noise.
