REGA PLANAR 10

Reviewed: March 2020 issue.

Rega's Planar 10 turntable with their RB3000 arm and Apheta 3 moving coil cartridge (£4499) delivered dynamite dynamics from LP in a way few others can match.

This is a two speed, belt drive turntable with electronic speed selection.

Compact, beautifully designed and finished – yet brimming with the knowledge and ability this company bring to LP reproduction.

Reviewer Noel Keywood said "I put on the Direct Cut of Sing Sing Sing, from the Syd Lawrence orchestra's Big Band Spectacular – and it was just that – spectacular. The live fast drum work came over with grippy timing and resonant power, pushing out at me with eye-popping drama. From this recent, miked-up live studio recording I got hear background acoustic and great atmosphere as a result. It was like being there. The Planar 10 comes over as smooth, clean and muscular in dynamic contrast. Absent were edginess, noise, sibilance or spit, making for a seemingly 'quiet' rendition. Less, but more".

A great turntable package that easily deserves our World Award for 2020 of Best Turntable.
