

IN ADMIRATION OF MUSIC

IKON On-Wall MK2

If you prefer to preserve the design integrity of your home décor, IKON ON-WALL MK2 is the no-compromise path to beautiful music from a discreetly placed source. Available both in black ash, light walnut as well as high gloss white, this speaker is an obvious candidate for any kind of home environment.

Featuring less angled speaker design, strong keyhole wall brackets, and overall reduced dimensions compared to its predecessor it will not dominate your walls in any way. Furthermore, the elegant IKON ON-WALL MK 2 is perfectly voice matched to any IKON MK2 system. It is ideal as compact rear/side loudspeakers in a full surround system and similarly perfect as a flat screen on-wall front stereo solution.

Historically, walls have often been associated with boundaries, separation, lack of opportunities and freedom. In this case, we offer the complete opposite. This speaker is not just another brick in the wall; it is discreet domestic freedom, sonically and visually. Sit back, relax, and let your walls do the talking.
