

# HT/1003

For when there is simply neither the space nor the need for all the output of a larger HT model. HT/1003 applies the same approach as its impressive stable mate but scales the power down by just a little. 10" high-powered, long throw driver and 300W means it has plenty of power on demand. This unit is intended primarily for high powered home theater applications, immersive gaming set-ups, and pairs nicely with active powered loudspeakers. Scaled down design, up-sized performance.

For REL owners already enjoying our Reference, Serie S and T/i subwoofers designed for both 2-channel and theater use, the HT/1003 is designed to supplement their system's .1/LFE output to produce extremely high output for chest rumbling home theater special effects.

## SPECIFICATIONS

TYPE	Closed box, front-firing driver
ACTIVE DRIVER SIZE & MATERIAL	10 in., 250mm long-throw, CarbonGlas™ cone structure, inverted carbon fibre dust cap, steel chassis
PASSIVE RADIATOR SIZE & MATERIAL	N/A
