

A TEMPLATE FOR GREATNESS

S/850

The S/850 is the foundation of Serie S, the model upon which the entire range was built. Every design lesson proven here shaped the rest of the line. With immense reserves of power and speed, the S/850 delivers explosive attack, immense output, and the refinement to disappear into the music or film.

Its redesigned, wider lower cabinet enhances scale and presence, while subtle details ensure it looks as refined as it sounds. Available with standard cloth grilles or the option to upgrade to premium wood, the S/850 sets the benchmark for design and performance.

As with all Serie S models, the S/850 is Airship Direct™ ready, offering wireless freedom without sacrificing speed or detail.

Tailored For:

- Dual-use systems (music + theatre)
- Medium-to-large rooms
- Stereo Pairs & Line Arrays

Grilles: Standard cloth; optional premium wood grille

Finishes: Piano Black, White Gloss
