

Enjoy a fashionable musical lifestyle.

This audio player looks like a pop, modern gadget, and uses materials with a high quality feel. Choose your favourite colour of audio and enjoy musical fun that matches your style.

- Choice of 10 colours. Enjoy music from a compact, pop design.
- Play music from various sources — CD, iPod/iPhone, iPad (via USB), USB, radio and Aux-in for other sources.
- A convenient IntelliAlarm for daily life. A special app provides even easier alarm control.
- Enjoy your favourite music with rich sound quality to your heart's content.
- Bluetooth® compatibility for smartphone (MCR-B142 only)

Made for
 iPod  iPhone  iPad

Micro Component System
MCR-042/MCR-B142

Stylish and fashionable, with a choice of 10 colours.

With its distinctive looks and convenient size, the MCR-042/B142 will fit in small spaces like a useful gadget. With less depth than the previous model, both main unit and speakers have iron front and top panels that give a feeling of strength. Colours ranging from pop to subdued in a choice of 10 varieties. Select the colour that matches your style, just like your fashion or music.

MCR-042/MCR-B142

Enjoy a diversity of sources, including iPod, iPhone and iPad, from one unit.

By docking the unit with an iPod or iPhone, you can enjoy your favourite tunes with high audio quality, thanks to the digital connection. And by using the USB port, you can play music files from an iPad or USB device. In addition to the CD player and FM/AM* radio, it has an AUX-In terminal for connecting a PC or DAP, giving you music enjoyment from a variety of sources in one unit.

*USA/Canada model only.

IntelliAlarm wakes you gently with music.

IntelliAlarm is a special type of alarm that gives you a wakeup call with music. Three minutes before the beep goes off, the music from your iPod or iPhone will first flow lightly and then gradually increase, to wake you gently. You can make more detailed settings with the DTA Controller app.

With the special DTA Controller app, a variety of settings are now simple and easy.

By installing the special app for iPhone/iPod touch/iPad, you can set the alarm and enjoy more convenient operation. For example, you can make detailed settings such as a different alarm time for each day, and also vary the IntelliAlarm volume and frequency. The settings are easy to make, just connect your iPhone/iPod/iPad and press the Sync button.

System requirements
iOS4.3 or higher

Enjoy your favorite music with rich sound quality to your heart's content.

The MCR-042/B142 includes Yamaha's Music Enhancer that restores what is lost when audio data is compressed (as in an MP3 player) to deliver sound that is more dynamic and has a greater feeling of expansiveness. The speakers feature a new 11cm (4-1/2") drive unit that employs a large-diameter magnet for enjoying music with rich bass tones and clear mid and high ranges. Bass sound is deep and robust, thanks to a large-volume cabinet that acts like a bass drum.

The Bluetooth® model lets you freely enjoy your music.

Micro Component System

MCR-B142

Great Convenience: Bluetooth® and DTA Controller App

Bluetooth® compatibility means you can enjoy music wirelessly from your smartphone. Put your system wherever you want it, and use your smartphone as you usually do to operate the playback functions. In addition, the iPhone/iPod/iPad specialised app lets you set the alarm time differently for each day of the week, as well as make detailed IntelliAlarm settings and transmit them wirelessly. The app will be periodically updated for additional functionality.

Other notable features

- FM/AM* tuner with 30-station preset tuning
* USA/Canada model only
- Sleep timer lets you fall asleep to music
- Dimmer for adjusting display brightness
- Headphone jack for private listening
- Tone control for optimal sound quality
